

Before

2.1 Home Screen

Color Contrast

- Darkened the secondary text, including “Tell us what you're wearing...” and helper text inside the outfit upload card, using dark plum-gray (#4A3E4D).
- Improved text contrast to target at least 4.5:1 for normal-sized text.

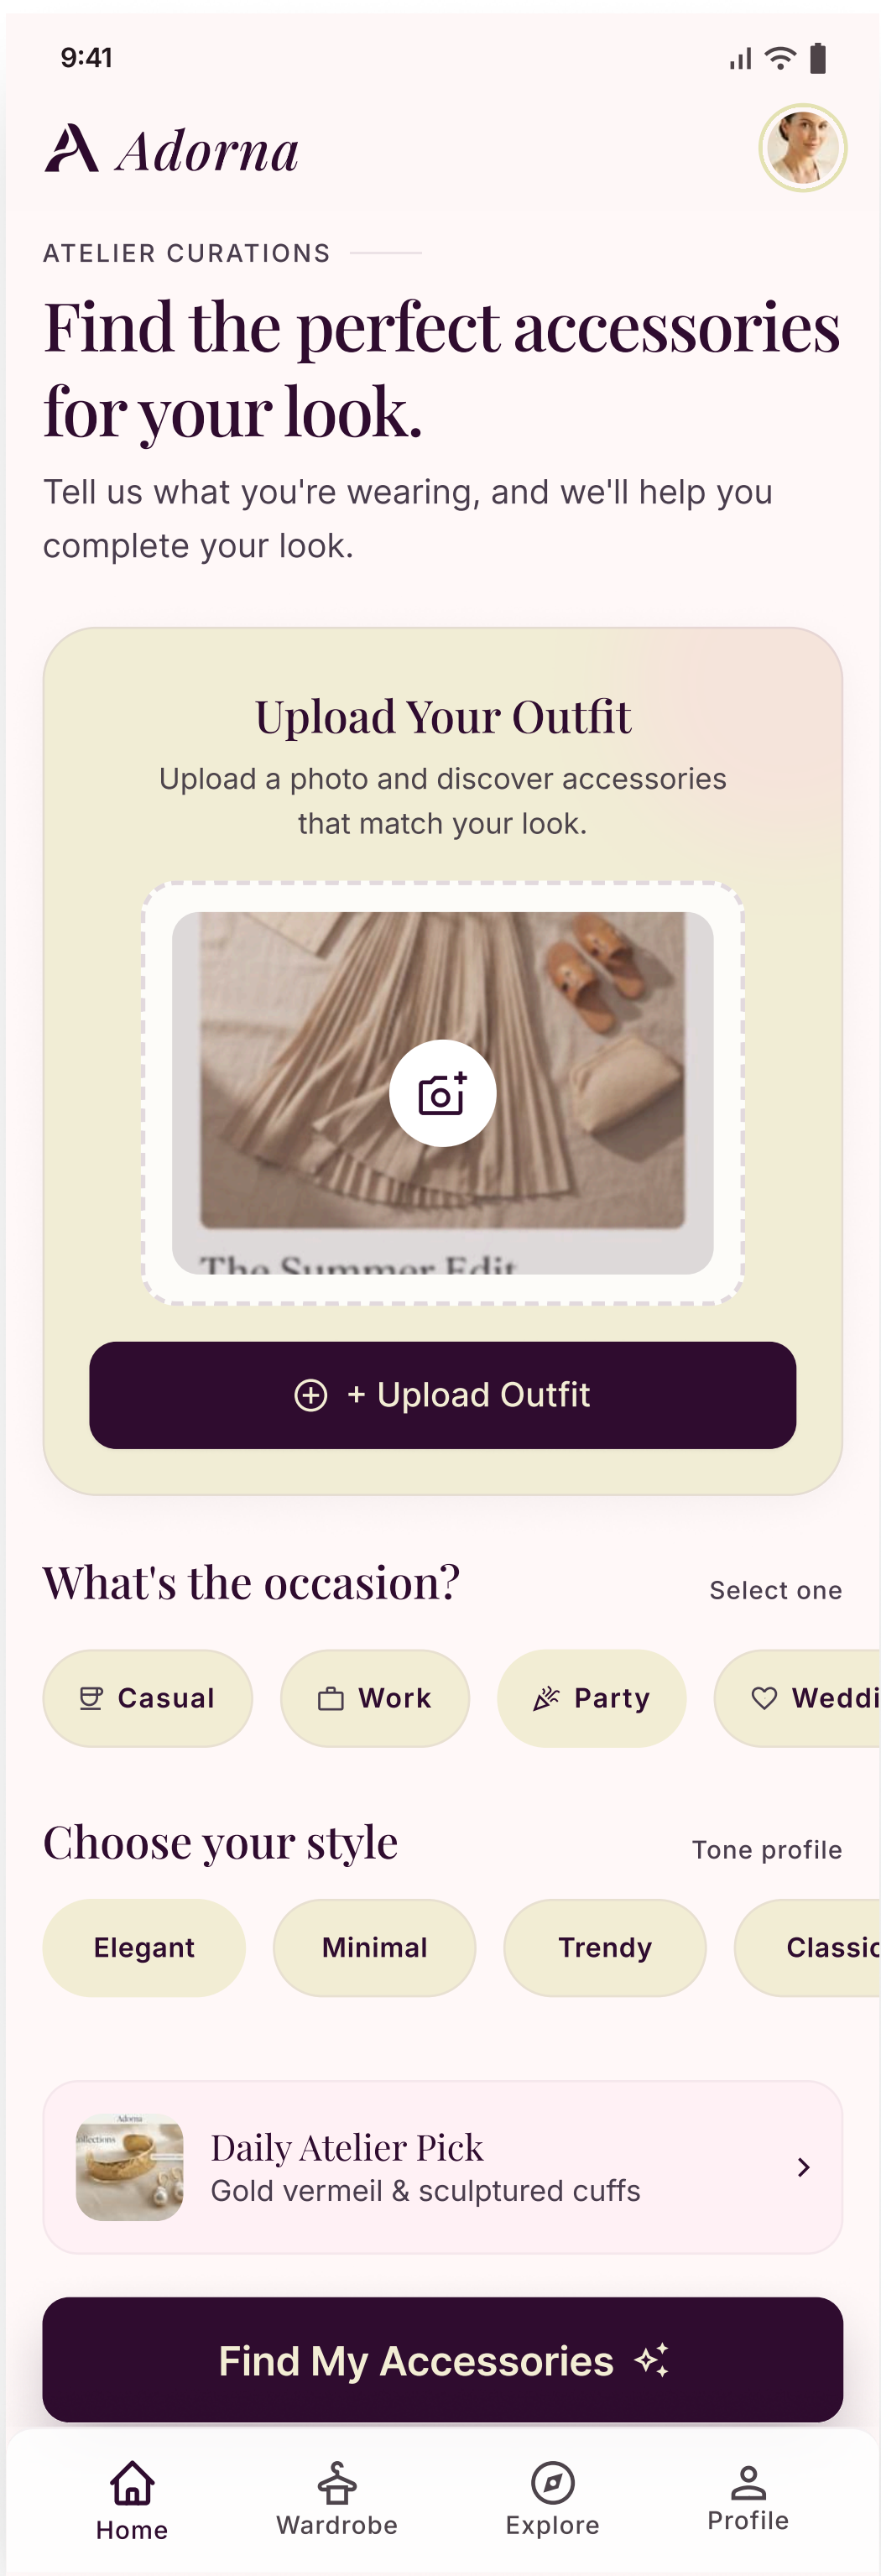

Touch Targets

- Increased the height and padding of occasion and style chips, including Casual, Work, and Party, to improve touch accessibility.

Usability

- Added a horizontal scrolling cue for the occasion chips to make the scrollable content more discoverable.

After

2.2 Upload Outfit Screen

Color Contrast

- Darkened instructional text, the “Tip” message, file format details (“JPG or PNG...”), and the privacy note to improve readability.

Touch Targets

- Increased the interactive area of the back button.
- Enlarged the “Choose File” button.
- Made the entire dropzone area clickable to simplify file selection.
