

Adorna — Your Personal Accessory Stylist

UX Principles & Visual Foundations

A smart accessory styling experience that helps users create coordinated looks based on their outfit, personal style, and occasion. Combining Parisian editorial poise with an intuitive algorithmic concierge.

Target Surface: iOS & Android Concierge

Spatial Cadence: 8-Point Cadence

Color Harmony: Deep Purple & Almond Oil

Typography: Playfair Display & Inter

01 UX Principles

Core interaction laws guiding the CharmMatch mobile styling workflow.

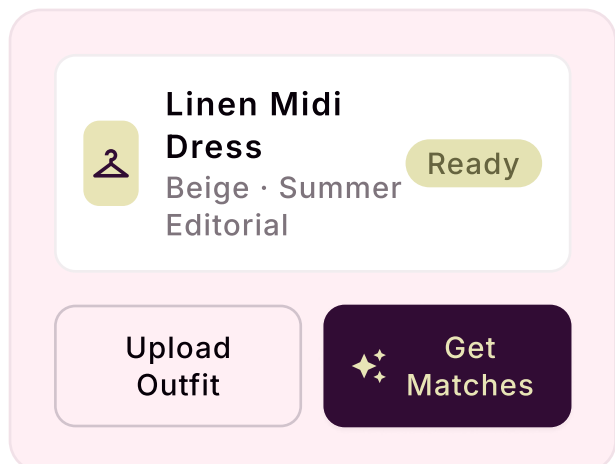

01 · VISIBILITY

Make important actions and information easy to see and understand.

Primary actions such as Upload Outfit, Get Recommendations, and Save Look are clearly visible, prioritized, and immediate to find.

Applied Pattern Simulation:

02 · CONSISTENCY

Use consistent patterns so users can easily predict interactions.

Buttons, cards, icons, colors, typography, and navigation follow consistent rules throughout the application matrix.

Design Token Matrix:

Standard Radius	16px (0.75rem / 1rem)
Touch Target Height	48px Master Height
Icon Cadence	20px Grid Standard
Color Contrast	WCAG AAA compliant

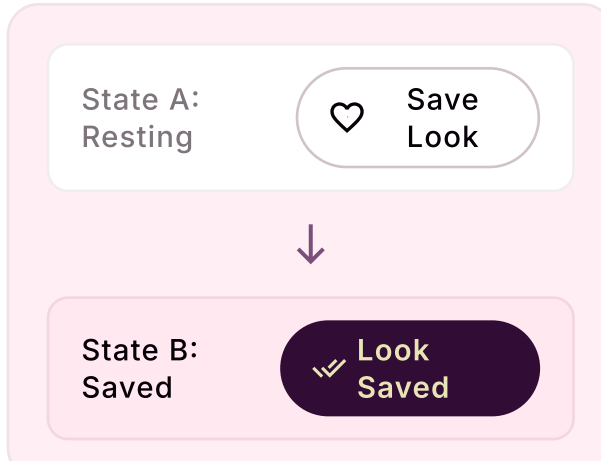

03 · FEEDBACK

Clearly communicate the result of every important user action.

When users save a look, select an accessory, or adjust parameters, the interface presents instant visual and state feedback.

State Transition Demo:

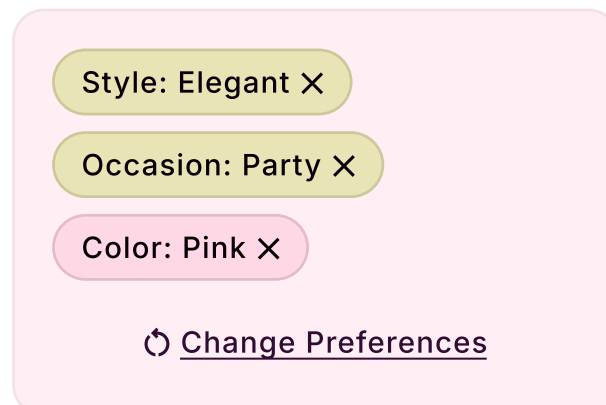

04 · USER CONTROL

Give users the freedom to change, adjust, or undo their choices.

Users can change their outfit, style profile, or occasion context seamlessly and generate refreshed styling suggestions.

Dismissible Parameter Chips:

02 Visual Foundations

System design tokens, typography scale, 8-point spatial rhythm, and reusable core UI foundations.

Tailwind CSS & Material Design Token Engine

Subsection A: Color Palette & Proportions

6 Core Brand Tokens
